Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line D 3-4 it is not clear as to what the second end refers to. Is it of the extension or of the front loop fastener?

However, the claims, as best understood, have been examined on their merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kato (US 5, 926,926).

Kato discloses an infant garment, diaper (2), a body made of sheet material (4,6,8) with front 10 and rear 18 sections, left and right loop fasteners 40 attached to upper left and right corners of an inside surface adjacent to an upper rear edge of a back portion as seen in figures 1 and 3) as broadly claimed. Further, Kato discloses a front loop fastener strip 12 carried by an outer surface adjacent to an upper edge of a front portion

Art Unit: 3765

of the body made of sheet material and left and right fastener extension (16-16a,16b) connecting left and right ends of the front loop fastener strip to the left and right loop fasteners respectively as broadly claimed. (See Kato, figures 1 and 3; col. 3, line 59 – col. 4, line 32).

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 3 is allowed. None of the cited references, alone or in combination disclose the fastener structure as in claims 2 and 3 including the auxiliary fasteners.

Response to Arguments

Applicant's arguments filed 9-16-05 have been fully considered but they are not persuasive. The fastener 26 is capable of being fastened to 12 on the front. The "inside surface" is on the inside surface of the fastener 16,16b and they are attached to the upper left and right corners of the inside surface as broadly claimed. In regard to the third point it is not clear as to what is presently being claimed in claim 1(D). The claim needs to be more specific as to where the fastener components are specifically fastened such as on the corners of the body. The claims are presently broad and unclear in regard to the loop and extension fasteners. The hook materials on the extensions should also be claimed for a complete recitation of the inventive components since it is not clear as to how the extensions attach to the loops without the hook materials.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
